Carton Material

Single Wall Corrugated Board – This would be suitable for lightweight product protection, distribution and storage. It can be supplied in a white or brown board and can be supplied plain and printed as required.

Double Wall Corrugated Board – Suitable for heavier products giving a better level of protection by using heavy duty paper. As above it can be supplied in white or brown board and can be supplied plain and printed as required.

Solid Board – Different materials are available depending on application. Solid board is suitable for either Silk Screen or Lithographic printing allowing for either a high gloss or Litho laminated finish. Solid board is mainly used for point of sale products or where the finish is essential for customer promotion.
