

Cardboard Edge Pieces

- Designed to fit along the edges and corners of palletised goods

Stock Ref	Size in mm
GEP1	50/50 x 1000
GEP2	35/35 x 1000
GEP3	50/50 x 1800

- Brown solid board
- Available in bespoke size on request

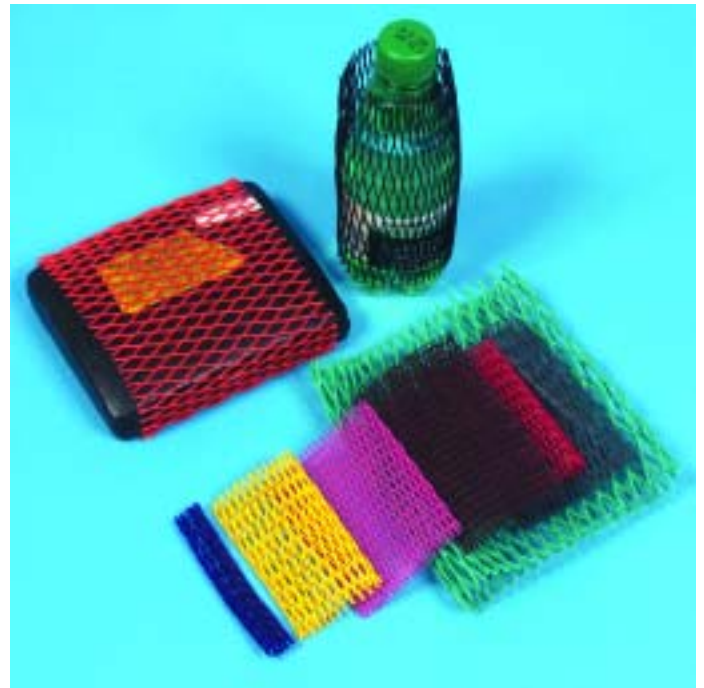

Silica Gel Sachets

Moisture causes many problems, eg. corrosion, rust, mould and fungal growth. SILICA GEL sachets are a simple answer to these problems. SILICA GEL absorbs moisture into its pores yet remains dry and free flowing, so its an excellent desiccant for many commercial and industrial uses, eg. with electrical / electronic equipment, leather goods, moisture sensitive chemicals.

Standard sizes available are:

1, 3, 5, 10, 25, 50, 100, 250 and 500 gram sachets, with either non-indicating SILICA GEL (to BS 2540:1991) or self-indicating SILICA GEL (to BS 3523: 1991).

Protective Sleeving

Polyethylene Tube Sleeving

- Manufactured from polyethylene in tube form in a range of diameters from 5mm to 250mm, Tenax protective sleeving is resistant to acids and solvents and unaffected by oils and greases making it ideal for protecting machined parts in an engineering environment. Other applications include protecting damage-prone items such as ceramics, glass and sanitary-ware.

Code	Colour	Size in mm	Roll length in m
TP5	Clear	5-15	50
TP10	Violet	10-20	50
TP20	Blue	20-50	50
TP50	Yellow	40-60	50
TP75	Brown	50-75	50
TP100	Red	70-100	50
TP140	Olive	90-160	50
TP200	Green	150-200	50
TP210	Black	100-250	50
TP218	Purple	260-400	50
TP220	Clear	110-220	100
TP180	L Green	180-280	50
TP95	Pink	50-105	50
