

# Self-adhesive Labels

## Self-adhesive Computer Labels

Developed for mainframe, high speed and microprinters where speed, accurate feeding and fanfolding are paramount. The strong backing sheet and clean cross perforations ensure that the labels feed smoothly through high speed printers and re-fanfold accurately. These labels have been specially manufactured to give a high quality, smooth, white surface so that they won't smear or smudge. The strong permanent adhesive ensures accurate secure labelling. Speciality bespoke labels are available on request.

### Honey Glassine Backing

Ref.	Label size	No. per box	PEL	Vert. spacing
One label across the web				
44065	89 x 36	8000

## Self-adhesive Franking Labels

- Plenty of space to include a slogan or advertising message along with the postal frank.
- The paper is very absorbent and the ink will quickly dry and will not smudge when the label is applied.
- Single labels mainly for use in automatic franking machines and double labels for hand-fed operations
