

AIRplus® from Storopack

The AIRplus® air cushion system: innovation at your service!
For packages of varying sizes, AIRplus® is the solution!

- **Different cushion formats**

AIRplus can be inflated to the size required and are produced either in single cushions, pre-cut to length, or in a continuous strip with easy tear perforations.

- **AIRplus® is flexible**

AIRplus® can easily be integrated into your packaging process.

- **Simplifies the job**

Clean and dust-free handling

- **Reduced costs**

AIRplus® air cushions help you make major savings in storage and transportation.

- **Requires no more than the touch of a button**

AIRplus® takes up minimum space, is easy to handle and simple to use!

- **Safer shipments**

AIRplus® safeguards your shipments and protects your products.

- **Reduced storage volume**

From a pallet of 50 rolls, AIRplus® can create more than 100m³ by volume of air cushions: a considerable reduction in storage requirements.

- **No capital outlay**

AIRplus® is a rented system.

Examples of universal applications in brief

- Universal applications: excellent padding and protective packaging.
- AIRplus® air cushions are light in weight: lower shipping costs.
- AIRplus® air cushions can be used more than once and will withstand heavy weights.
- The reusable PEBD tubular film makes AIRplus® an ecological and a 100% recyclable packaging system.
- The dimensions of the air cushions are particularly suitable for external packaging, providing enhanced security against the hazards of transportation.
- Implementation of the AIRplus® machines system is simplicity itself: can be quickly and effectively integrated in your packaging line.
- The AIRplus® system occupies a minimum of space on your packaging lines.

AIRplus® Excel

The AIRplus® Excel system offers a good alternative to voidfill, without using compressed air.

- This system is portable and compact
- Easy to install - plug in and start
- Easy to operate
- Very fast
- Uses standard sizes of film made from LDPE
- Huge savings in packaging materials and shipping costs

Code	Size	Length
EXC185	200x185mm	625mm
EXC130	200x130mm	635m
