

## Euro Stacking Containers

Available in two footprint sizes, 400x300mm and 600x400mm, and ranging capacity from 4.5 litres, the Euro stacking containers could be described as one of the great workhorses of industry.

With clean, smooth sided interior walls, the stacking container offers an excellent capacity/overall size ratio and the various sizes in the modular concept inter-work for operational flexibility.

## Boxer Pac

The sleeve pack comprises a plastic moulded base with lid and a concertina sleeve. This well proven concept is widely used and is favoured for its space saving efficiency when folded for empty return.

The Boxer Pac is available with 1200x800 and 1200 and 1000mm bases. Plus a range of base and sleeve options to suit all requirements.

The above containers represent only a small proportion of the containers available. Should you require information on other ranges available please contact our sales team.

## Attached Lid Containers

Security contents in storage or transit can be considerably enhanced by the use of attached lid containers. Our range is designed to deter tampering and to offer a level of product security by keeping contents hidden from view and through the application of a variety of security seals.

There are 15 attached lid containers in the range with capacities ranging from 6 litres to 75 litres.
